RESEARCH INTEREST

My research focuses on designing socially responsible AI models that address real-world data challenges, grounded in social data science and responsible AI, with an emphasis on data mining and graph learning methods.

EDUCATION

Chung-Ang University , Seoul, Korea BS in <i>Computer Science and Engineering</i>	March 2023 - Feb. 2027
The Education University of Hong Kong , Hong Kong SAR, China Summer School Exchange Program	July 2026 - Aug. 2026
Sejong University , Seoul, Korea Certificate in <i>Korean Language and Literature</i>	Sept. 2021 - Feb. 2023
University of Information Technology , Yangon, Myanmar B.Sc in <i>Computer Science</i> Completed 5 semesters of a 5-year curriculum (<i>Voluntary Withdrawal</i>)	Dec. 2017 - May 2020

WORK EXPERIENCE

Undergraduate Student Researcher Machine INtelligence & Data Science - MINDS Lab @ CAU • Topic: Fairness in AI models • Supervisor: Prof. Yunyong Ko	May 2024 - Present
Educational Consultant BladeX Education [Link]	Jul 2026 - Present

EXTRA-CIRRICULAR

• Women in AI - WAI Myanmar – Volunteer Instructor (Course: Introduction to Artificial Intelligence) • Chung-Ang University AI - CUAU Club – Advanced Track: Deep RL Study, NLP Research Project – Basic Track: CS224N Study, ML Project • University of Information Technology Students' Union - UITSU – Education Officer – Student Representative	Feb. 2025 - April 2025 March 2025 - Dec. 2025 May 2019 - April 2020 May 2018 - April 2019
